#344 RUST CONVERTER

**STOPS RUST DEAD!
 CONVERTS RUST TO BLACK COATING
 THEN ENCAPSULATES METAL WITH
 WEATHER PROOF COATING FOR LONG
 LASTING PROTECTION**

DESCRIPTION

This is a revolutionary product for the rust control industry. It is a simple, economical, effective and safe product that effectively converts iron oxide (rust) into a black inert metal combined with a super durable and hard protective coating to seal out oxygen and moisture, preventing corrosion.

Treated rust will become a matte black coating that can be left as is, or it can be painted over with a standard oil-based paint if desired.

FEATURES BENEFITS

- One Step System
- No need for sanding or grinding
- Converts to a water proof rust free surface
- Fast Action
- Does not require additional coating
- Can be painted over if desired
- Long Lasting

SPECIFICATIONS

Physical Form	Slightly viscous water based liquid
Color	White
Odor	Mild tannin
pH (concentrate)	2.5 +/- 1
pH (1:50)	n/a
Density/Specific Gravity	>1 1= water
Shelf Life	9 months
DOT Shipping Label	None

DIRECTIONS

Prepare surface: Make sure surface is clean of dirt, grease and any oil.

Mix thoroughly

Pour the amount you will need for the job into a suitable plastic container. For large areas, use a roller, for small areas use a brush. Material can be sprayed if desired.

Apply one to two coats and be sure to allow product to completely dry (convert the rust) before applying additional coats.

Clean up can be done with water.

It is recommended that protective gloves and safety glasses be worn when using this and all cleaning products.

Refer to MSDS for further safety information.

**Packaging: 4x1 gallons per case
 5 gallon pails
 30 & 55 gallon drums**
