LONG LASTING - BIODEGRADABLE
CAN BE BURNED (LESS WASTE IN LANDFILL)
BIODEGRADABLE - LONG LASTING
LARGE SIZE WILL NOT BLOW AWAY
USE INDOOR/OUTDOOR

DESCRIPTION:

A biodegradable concentrated deodorant powder. Formulated with odor eliminating granules to suppress and control undesirable odors while releasing a clean mint scent to the surroundings. Eliminates foul odors from carpets, floors, garbage containers, disposal units, pet odors, smoke, oil spills, urine and other undesirable odors.

This product reduces smells that attracts pests and insects and creates a pleasant clean odor.

DIRECTIONS

Just sprinkle virtually anywhere!! These odor releasing granules are designed to end odor problems at their source, merely by sprinkling or scattering the granules wherever odors exist. These granules may be used from garbage pails to large dump areas, or wherever objectionable odors prevail. Use freely to maintain a constant air of freshness. Mix with sweeping compound, if desired: allow to stand several minutes and then sweep in regular manner.

GENERAL USE

Sprinkle into empty garbage receptacles, large or small. Add additional amount of granules for the large receptacles outside restaurants, motels, hotels, cafeterias, etc.

GARBAGE TRUCKS: May also be used to help deodorize refuse/garbage trucks by shoveling odor control granules into the compartments.

LANDFILLS : Use to cover large areas of landfills . Controls odors and forms an odor eliminating blanket.

Use for drain beds, leaching fields, waste dumps, locker rooms, kennels, sewer manholes.

PACKAGING: *Filled by weight
12X 1# jar (approx 12x1 quart shaker paper tube)

20 pounds 5 gallon pail

50-55 gallon drum 225 pounds
