**4155 4x32 oz bottle**

**8150 4 x 8 oz spray bottles**

**A ready to use spray Uses 70% alcohol and hand conditioners for a fast and effective hand treatment**

Using an alcohol hand spray is an easy and really effective way to slow the spread of illnesses like the flu and corona-virus from one person to another or just from touching a contaminated surface. If hands are not cleaned properly, even rubbing your eye can spread the virus.

**How should treat your hands?**

**Rub the product all over the surfaces of your hands until your hands are dry.**

Use in any conventional spray bottle.

- 1: SPRAY 70% alcohol in the palm and back of hands.
2. Rub hands Together **\*\*Spray liberally into both sides of your hands make sure to wet completely**
3. Rub the back of each hand with the palm of the other hand.
4. Rub palm of hands with fingers interlaced.
5. Rub the back of your fingers with the opposite palms.
6. Rotate your thumbs in the other hand
7. Do a circle on your palms with your fingers clasped.
8. Air Dry
